Matters For Attention In The Spring.

Spring is the best time of the year to put in Tiled Hearths and Facings, Cabinet Mantels and Radiant Grates. It is nice to do this just before house cleaning.

In the fall when you need this kind of work done before you can start into the winter satisfactorily, it is of course impossible to get such work done. Take time by the forelock and do it now. We carry a beautiful line of Cabinet Mantels and Tiles and invite inspection.

Spring is the time of the year when everything is putting on a new coat, let the house have one also. There is nothing that adds to the appearance of the place or the preservation of the house as good, well selected paint. Sherwin-Williams is the best. It has been sold here for 30 years. We have Sherwin-Williams Paint in every color, we also have White Lead and Linseed Oil with every color to mix it with.

CONSOLIDATION

Of Rural and Star Route
Service July 1.

Effective July 1, the rural delivery service and the star route service of the Postoffice Department are to be consolidated, the combined service to be known as the Division of Rural Mails.

The new division will have immediate supervision over annual appropriations aggregating close to \$50,000,000. It is claimed the consolidation will prevent conflicting management, avoid duplication of postal facilities and result in material economies. It is believed the change will cut down the expenses of operation by several million dollars without any loss of efficiency.
